MAXIMUM QUALITY AND MAXIMUM SECURITY.

Our optimized FO-PP-Portfolio.

Telegärtner's fiber optic patch panels are the ideal solutions for a safe and reliable start into fiber optic projects in data centers. High-quality materials and optical fibers give you peace of mind during installation, operation

and maintenance. An extensive range of standard and customer-specific models and extremely short delivery times ensure you will get the product you need where and when you need it.

Fiber Optic Patch Panels

- Powder-coated buckling resistant 19" sheet steel housing in light-grey (similar to RAL 7035)
- Cable entries on the rear accept M20/M25 cable glands
- Top cover included
- Data sheets, installation instructions, etc. available online

- Catalog items with OS2, OM3/4/5 fibers
- Catalog items with ST-S(cer), ST-D, LC-D/Q, SC-D, MDC-Q, E2000 adaptors
- Reserve capacity of the front panels by default
- All patch panels types available in splice and patch version
- Customer-specific versions easily created using the TICNET configurator
